

CHRONIC GROUCHES

By Hendrix

MERRILLVILLE

Trustee Boyd had a voting machine installed in Merrill hall this week and

an instructor was supposed to be here Thursday.

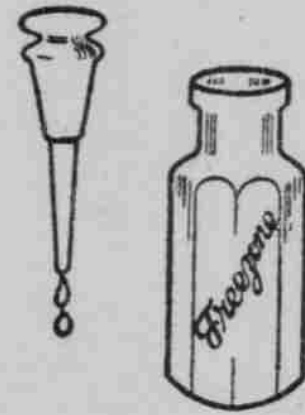

Word was received from Mr. and Mrs. M. H. Pierce from California that their son Milton had 12 pieces of bone removed from his hand. They are in hopes that he may recover now.

The community meeting was well attended. There were several from Brownsport, the teachers from the Griffith school and a number of other visitors present. The Argo orchestra gave two numbers that were greatly appreciated. Little Mildred Kuehl gave—Adv.

a reading and certainly did fine for so young a child. Miss Knarr, eighth grade teacher, gave a reading and responded to an encore, she is a very pleasant speaker. Blanch Kuehl read a newspaper that was very newsworthy and the want ads made known some of the people's wants that had not been made public before. Mrs. Lindsey from Gary elocution teacher, gave three numbers. It is a great treat to the community to have such talent in these meetings.

"CORN'S"

Lift Right Off Without Pain

Doesn't hurt a bit! Drop a little "Frezzone" on an aching corn, instantly that corn stops hurting; then shortly you lift it right off with fingers. Truly!

Your druggist sells a tiny bottle of "Frezzone" for a few cents, sufficient to remove every hard corn, soft corn, or corn between the toes, and the calluses, without soreness or irritation.

It was voted to send Mrs. Argo as a delegate to Indianapolis to the Parent-Teachers meeting, Oct. 25-26.

Roy Hach was appointed chairman of a committee for the program next month.

Cheerfulness.

Cheerfulness is full of significance; it suggests good health, a clear conscience and a soul at peace with all human nature.—Charles Kingsley.

Croup Ends Life

Many Children Die of Croup Every Year Before a Doctor Can Be Summoned.

Parents of children should be prepared at all times for a spasm of croup. Keep in the house a treatment that will give instant relief and keep the child from choking until the arrival of the physician.

Get a bottle of HYOMEL today and in case of an attack of croup, pour 20 drops into a bowl of boiling water. Hold the child's head over the bowl so that it can breathe the soothing, penetrating vapor that arises in the immediate sound for a physician.

This treatment has helped many children and is a precaution that all parents should promptly take.

HYOMEL is sold by druggists everywhere and satisfaction is guaranteed for croup, catarrh, asthma and bronchitis or your money back. If you have children, save this notice.

M-I-O-N-A Ends indigestion

It relieves stomach misery, sour stomach, belching and all stomach disease or money back. Large box of tablets at all druggists in all towns.

Devilfish Overcame Whale. According to some naturalists, the squid, or cuttlefish, is the principal food of the sperm whale. But apparently the game is not always one-sided. There is told a thrilling incident of a huge sperm whale rolling on the moonlit surface of the sea enveloped in the mighty coils of an octopus. Bullen, who witnessed the fight, is of the opinion that the devilfish was far larger than any of which even fragments have yet been handled by man.

TRY A "TIMES WANT AD"

"California Syrup of Figs"

Delicious Laxative for Child's Liver and Bowels

Hurry mother! A teaspoonful of "California" Syrup of Figs today may prevent a sick child tomorrow. If your child is constipated, bilious, feverish, fretful, has cold, colic, or if stomach is sour, tongue coated, breath bad, remember a good "physic-laxative" is often all that is necessary. Children love the "fruity" taste of genuine "California" Syrup of Figs which has directions for babies and children printed on the bottle. Say "California" or you may get an imitation fig syrup. Beware!

BIG REAL ESTATE BOOM BREWING

The Pent Up Demand that has been accumulating During Four Years of War and Two Years of Subsequent Inactivity Due to High Building Costs and Tight Money

Now Breaking Loose in a Deluge of Activity

So far the real estate market has been characterized by sales in the brokerage line, due to a reluctance to build new homes. Now, however, the cost of improved property has increased to a point, and the cost of building has decreased to an extent that a great building revival is under way.

A Live Market for Vacant Lots is Created

Fortunate, indeed, is the subdivider who has unsold lots in a high grade district, where all street improvements have been put in at pre-war prices; where a high-grade development has already taken place; where transportation facilities, schools, parks and churches are already available.

Maywood is Your Last Opportunity

North of Maywood Park we have but 84 lots left. These will all be sold this Fall. By next Spring, when building conditions will be most favorable, there will be no desirable lots anywhere on Hammond's great East Side, where the greatest building activity of the past five years has taken place. We can say positively, "You will make money on the lots you buy in Maywood."

Great Possibilities in Our Easy Terms

For \$25.00 down and \$15.00 a month you can be sure of having one of these lots. The purchase price of a choice 35 foot lot is \$550.00. If you make \$250.00 profit by spring, that profit goes to you even though your investment may be only \$100.00.

Your Chance to Make Money Lies in the Limited Supply

Only 84 lots to be sold, and then some one has got to pay you a profit. The territory around this subdivision is built up solidly. There is no other subdivision just beyond this that will be ready when this is sold out. Maywood is the last available vacant on the East Side.

Woods-Martin & Company

REAL ESTATE OPERATORS
